

## *IRMO HIGH SCHOOL*

I just want to share with you one of the project that I had a pleasure of doing last Sunday at Irmo High School.

The Snack Pack - Midlands Project - Feeding Children Everywhere packed 65,000 meals at Irmo High School on October 25th. The event was a big a success thanks to all the churches, organizations and volunteers. Just imagine if your school lunch on Friday was the last food you would eat until school breakfast was served the following Monday morning. The Snack Packs feed hungry children in our Midlands community. Snack Packs provides grocery bags with 16 to 18 easy to-eat, nonperishable food item.

The Snack Packs work closely with social workers in the schools we serve. They identify students in need who would benefit.

Picture below is of the volunteers we had on one shift to put together Lentil Casserole packages.
